# PYROLYTIC OVEN

## DOP4556W

### ETERNAL WHITE

#### - Ai Talent Sensor

Thanks to Ai Talent Sensor, the oven automatically manages the cooking time, mode and temperature based on the humidity level of the preparation detected by the Sensor.

#### - Auto Mode

Auto Mode is capable of controlling the oven and programming a multitude of dishes. Depending on the recipe selected, the oven will automatically suggest the best way to cook your dish for an excellent result.

#### - Low Temperature cooking

This exclusive function cooks meat, poultry and fish evenly, evenly and gently below 100°. This perfectly controlled cooking process produces dishes of incomparable tenderness.
